## GP500 INV Micro

### Description

- 500W GP solar inverter with inbuilt MPPT charge controller
- 2x 65Ah Deep Cycle AGM battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year full warranty

## GP500PV Micro

### Description

- 500W GP solar inverter with inbuilt MPPT charge controller
- 1x 200Watt GP monocrystalline solar modules with 30 years active performance
- 2x 65Ah Deep Cycle AGM battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year full warranty

## GP500 INV Micro-H

### Description

- 500W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 2 x 100Ah Deep Cycle AGM battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year full warranty

## GP500PV Micro-H

### Description

- 500W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 2x 200Watt GP Monocrystalline solar modules with 30 years active performance
- 2 x 100Ah Deep Cycle AGM battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year full warranty

### GP 1000 INV Mini

#### Description

- 1000W GP solar inverter with inbuilt MPPT charge controller
- 2 X 150Ah Deep Cycle AGM battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year full warranty

### GP 1000PV Mini

#### Description

- 1000W GP solar inverter with inbuilt MPPT charge controller
- 2 X 200 Watt G P monocrystalline solar modules with 30 years active performance
- 2 X 150Ah Deep Cycle AGM battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year full warranty

### GP 1000 INV Mini-H

#### Description

- 1000w GP solar inverter with inbuilt MPPT charge controller
- 2 X 200Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play.
- One year full warranty

### GP 1000PV Mini-H

#### Description

- 1000w GP solar inverter with inbuilt MPPT charge controller
- 2 X 200watt GP monocrystalline solar modules with 30 years active performance
- 2 X 200Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play.
- One year full warranty

### GP 1500 INV Basic.

#### Description

- 1500W GP solar inverter with inbuilt MPPT charge controller
- 4 X 150Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

### GP 1500PV Basic.

#### Description

- 1500W GP solar inverter with inbuilt MPPT charge controller
- 4 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 4 X 150Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

### GP 1500 INV Basic H

#### Description

- 1500W GP solar inverter with inbuilt MPPT charge controller
- 4 X 200Ah Deep Cycle AGM battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year full warranty

### GP 1500PV Basic H

#### Description

- 1500W GP solar inverter with inbuilt MPPT charge controller
- 4 X 200 Watt GP monocrystalline solar modules with 30 years active performance
- 4 X 200Ah Deep Cycle AGM battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year full warranty

## GP 2400 INV Standard

### Description

- 2400W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 4 X 150Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- One year full warranty

## GP 2400PV Standard

### Description

- 2400W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 4 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 4 X 150Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- One year full warranty

## GP 2400 INV Standard K

### Description

- 2000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 4 X 200Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- One year full warranty

## GP 2400PV Standard K

### Description

- 2000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 4 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 4 X 200Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- One year full warranty

## GP 3500 INV Large

### Description

- 3500W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 6 X 150Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 3500PV Large

### Description

- 3500W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 6 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 6 X 150Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 3500 INV Basic K

### Description

- 3000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 6 X 200Ah Deep Cycle AGM Battery
- Battery rack
- 10mx 16mm 2 core cable and interconnectivity cables
- Plug and Play
- One year warranty

## GP 3500PV Basic K

### Description

- 3000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 6 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 6 X 200Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- 10mx 16mm 2 core cable and interconnectivity cables
- Plug and Play
- One year warranty

## GP 5000 INV Large

### Description

- 5000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 8 X 150Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 5000PV Large

### Description

- 5000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 8 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 8 X 150Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 5000 INV Large H

### Description

- 5000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 8 X 200Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 5000PV Large H

### Description

- 5000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 8 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 8 X 200Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 6000 INV Super

### Description

- 6000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 100Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 6000PV Super

### Description

- 6000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 16 X 100Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 6000 INV Super H

### Description

- 6000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 150Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 6000PV Super H

### Description

- 6000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 16 X 150Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 7500 INV Mega

### Description

- 7500W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 150Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 7500PV Mega

### Description

- 7500W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 16 X 150Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 7500 INV Mega K

### Description

- 7500W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 200Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 7500PV Mega K

### Description

- 7500W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 16 X 200Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 10000 INV Mega

### Description

- 10000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 200Ah Deep Cycle AGM Battery
- Battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 10000PV Mega

### Description

- 10000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 16 X 200Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

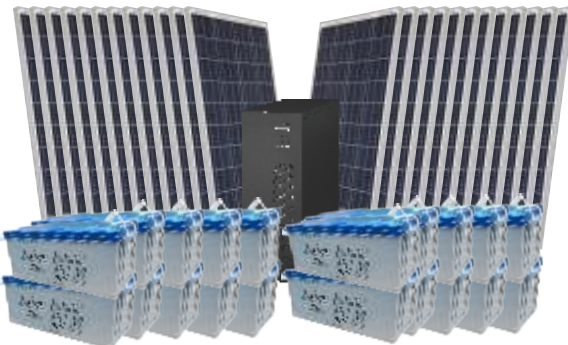

## GP 10000PV Mega H

### Description

- 10000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 20 X 150Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty

## GP 10000PV Mega H

### Description

- 10000W GP solar inverter with inbuilt MPPT charge controller with more than 5 years design life
- 16 X 200Watt GP monocrystalline solar modules with 30 years active performance
- 20 X 150Ah Deep Cycle AGM Battery
- Panel mount and battery rack
- Interconnectivity cables
- Plug and Play
- One year warranty
